great record as a college slab artist. Since leaving Washburn and Topeka he has played baseball most of the time. During the first years of his professional career he was a pitcher and played on several teams in the Three Eye league. Last season he went to Houston, Tex., where he played with Wade Moors, an old college chum and a former student of Washburn. On account of his great success in swinging the willow he was shifted to first base, where he could make better use of his hitting. He is a good batter and is considered by those who follow the different teams in the Three Eye league. Last season he follow the different teams in the Western association as one of the heavy hitters of the association. In yesterday's game he was up four times and secured three hits all of them clean, and one of them being good for

Oklahoma Mets Defeated by the White Sox.

Game One of the Best Seen on the Athletic Field.

SCORE WAS TWO TO ONE

Topeka Won by Daring Base Running.

Both Halla and Bandy Pitch Excellent Games.

The initial appearance of the Oklahoma City Mets at Association Park Sunday afternoon marked the playing of the finest exhibition of the national game seen on the home grounds this season. Topeka took the contest in a close race by a score of 2 to 1. Brilliant plays and fielding were the regular routine of the game and nearly every play. Big Jack Halla worked for the home team and although he was touched up to a much liveller tune, Dame Fortune smiled on his efforts and although as many as two hits were more runs, mostly by the aid of errors. made in an inning with no one out the visitors were unable to score until the game was nearly ancient history.

Bandy who worked for the visitors pitched as good a game as has been seen on the local grounds this season. He is a short, heavy set pitcher with rosy cheeks and a smile which was always visible from the darkest corner of the grandstand, and which made him a favorite with the fans. He has a nice delivery with curves that resemble scenic rallway and a vicious drop which he invariably interposed as a thir strike and which the catcher would pu out of the dust at the rear end f the plate. Had he not made a wild arro to third in the second inning a muc different story might be told in thes pages today.

would be hard to get a better combination to draw in a week day game.

One gratifying feature of the present season. He was secured from Little Rock by Manager McFarduring the last few weeks of the race is the spurt which has characterized the placing of Dr. Andrews' Hutchinson Salt Packers. This team is now at the head of the second division and is crowding mighty close to the first discovered by the said about him in other toward.

son Salt Packers. This team is now at the head of the second division and is crowding mighty close to the first division. Fans in Topeka are always pleased when Dr. Andrews wins a game.

By winning from Oklahoma City yesterday the locals once more crowd into third place. But a half a game now separates the locals from Oklahoma City, the holders of the second place. With the cripples on the local team getting into better condition it will not be long until defeats are an uncommon occurrence for the Champs.

Montie McFarland, who is playing right field for the Mcts, is a brother of Manager McFarland. He has been managing a team in the Iowa state league this season, but did not like the lob and threw it up to join his brother?

After two-thirds of the course had been run both parties stopped for breath. The second heat was then started in the direction of second base and Ragan finally won out. During this critical time Gill stayed at third in a semicomatose condition when he probably could have scored. In the sixth after Gill had doubled and reached third on Rapps' fielder's choice in which no outs were made Ragan started a double play which eliminated Rapps as a baserunner and caught Montle McFarland at first. White was, an easy out. Umpire Guthric officiated at the game yesterday and did, the best job he has done at the local park this season. He ran the game from the start to finish and finished it in record breaking time. In the third inning Manager McFarland was removed from the scene of the conflict immediately after handing down an unwritten opinion which dwelt too promiscuously with some of "his umps" personal features.

By far the biggest crowd of the season attended the game and all were satisfied. There were in the neighborhood of three thousand paid admissions to the park yesterday afternoon.

MISSES' COSTUME.

The attractive and girlish costums here illustrated is developed in plain white percale, trimmed with dark blue bands. The jumper is opened to the waistline front and back. A lingerie waist can be worn with this or a waist of the same material. The graceful ripple of the pleated skirt is especially becoming to the girlish figure. It is made seven-gore, having three backward-turning pleats at each seam.

S.S.S. PURIFIES There is no other part of our physical system upon which so much

depends as upon the blood. The muscles, nerves, bones, sinews, skin, and other portions of the body are sustained, developed and enabled to perform different duties, because they are supplied with nourishment and healthful properties through the circulation. In various ways the blood becomes contaminated and polluted. A sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, will leave the refuse and waste matter of the body to sour and form uric and other acids, which are absorbed into the blood and Rheumatism, or some itching, disfiguring skin disease is the result. Muddy, sallow complexions, eruptions, splotches, pimples, etc., all show that some humor has taken root in the circulation and rendered it sour and unfit for nourishing the body. There is scarcely any disease which cannot be traced to the blood. Often the disease-tainted blood of parents is handed down to children and their lives are a continual battle against disease in some form, usually of a scrofulous nature. Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., are all deep-seated blood troubles, and until this vital fluid is purified they cannot be cured. For all blood diseases S. S. S. is the best remedy ever put upon the market. This great medicine is made of roots, herbs and barks of recognized blood-purifying and building-up properties. It goes down into the circulation and removes all poisons, impurities and humors, supplies the blood with the healthful properties it needs and completely cures blood diseases of every kind. S. S. S. cures Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc. because it purifies the blood. Book on the blood and medical advice free.
